

PARTNERS

MODERNIZE YOUR IT INFRASTRUCTURE WITH DELL AND MELILLO CONSULTING

As data becomes more ubiquitous, businesses need to find new ways to support traditional and modern workloads to ensure they work autonomously and collaboratively across all their IT environments. As a Dell Technologies Titanium partner with advanced knowledge in Dell's portfolio of solutions, Melillo can help you modernize, automate, and transform your data center using industry-leading server and storage technology.

Power your Data Center with a New Approach to Storage

At Melillo, we'll help you transform and mobilize any workload with Dell PowerStore. The revolutionary storage appliance combines the advantages of cutting-edge storage hardware with the flexibility and simplicity of modern software design. With PowerStore, you get:

- A data-centric design that offers scale-up and scale-out capabilities with a 4:1 data reduction guarantee
- Intelligent automation that supports greater efficiency and cuts operating costs
- An adaptable architecture that enables speed and mobility, so applications can run directly on the smart device

Innovate, Adapt, and Grow with a Modern Server Environment

In order to power innovation to meet the demands of digital transformation and acceleration, you need a secure infrastructure that supports a full range of modern workloads and objectives. Using Dell PowerEdge servers, our team of IT experts will modernize your server environment to address this need—with security that starts at design and continues through the supply chain and full lifecycle.

With Dell PowerEdge servers, you benefit from:

- Adaptive compute that can scale to address your data at the point of need
- Autonomous compute infrastructure with intelligent systems that work together and independently according to the parameters that you set
- Proactive infrastructure resilience with secure interactions and the ability to predict potential threats

Innovate, Adapt, and Grow with a Modern Server Environment

Backed by a team of seasoned IT pros who hold the highest levels of Dell Technologies certifications, Melillo can develop and deploy Dell business and technology solutions that will help you get from where you are now to where you are going to support digital business acceleration. **Contact us today to learn more.**

At A Glance

Since 1988, Melillo has been helping organizations power their business through technology. We offer a full range of complete IT solutions that address customers' on-premises, hybrid, and cloud needs, with advanced expertise in infrastructure, development, security, and data management.
