TODAY'S DATA DEMANDS SIMPLE, EFFICIENT AND AGILE PROTECTION

As data continues to expand at an exponential rate, organizations need a way to efficiently protect their data while improving time-to-value, reducing overall cost and complexity, and planning for growth. With Dell PowerProtect Appliances from Melillo, we'll help you simplify data protection operations and reduce risk with improved reliability, speed, and efficiency for backup and recovery.

Featuring purpose-built backup appliances, integrated and target systems, and Cloud, VMware, and cyber recovery capabilities, PowerProtect Appliances help you secure a solid foundation of data protection that keeps pace with unrelenting data growth, emerging workloads, and data distributed across the edge, core, and cloud.

With Dell's PowerProtect Appliances, Melillo can help you achieve up to:

1 **38% faster backups**

2 **34% faster restores**

3 **65:1 Deduplication**

Streamline Data Protection, Drive Efficiency, and Accelerate Agility

PowerProtect appliances and software deliver the agility you need to ensure your data protection not only adapts to new workloads, but also helps propel your transformation with the ability to:

- Extend to the cloud for long-term retention
- Manage up to 2x usable capacity
- Leverage cloud for orchestrated DR with 3-click failover and 2-click failback
- Back up data and applications in the cloud
- Protect advanced VMware environments and emerging workloads[1]

Delivered in an as-a-service, pay-as-you-go, or pay-as-you-use model, Dell PowerProtect Appliances can help you address the demand for lower TCO, explosive data growth, and more stringent service levels, while ensuring your existing mission-critical applications and infrastructure are secure.
