MelilloSMART
Empowering Your Vision

COMPLYSOFT

In highly regulated industries, your IT team needs to ensure they have the right processes, procedural controls, and software to protect the data within their closed computer system and ensure quality.

With ComplySOFT, Melillo offers customers a comprehensive suite of software solutions, services, and support. Powered by OpenText AgiliProve and Archive Manager, ComplySOFT will help you meet your Computer System Validation requirements and comply with government regulations.

OpenText AgiliProve, the next generation of eApprove, gives you a more controlled, enforceable workflow with electronic signatures that is fully configurable, while Archive Manager makes it easy to manage data retention, access, and destruction on a single scalable platform.

ONLY COMPLYSOFT OFFERS:

- Complete management of electronic records, with end-to-end audit trails and secure eSignatures
- One location to store and access your OpenText QC/ALM requirements, tests, runs, and defects
- A reduced number of projects to upgrade and the volume of data in OpenText QC/ALM projects
- Secure and reliable retention of data for audit purposes and access to OpenText QC/ALM record data, including attachments

With MelilloSMART ComplySOFT, you get the legacy of decades of excellence, support from the brightest minds in the industry, and leading technology to ensure your infrastructure is on the path towards greater operational success.

MelilloSMART

At a time when technology is both a tool and a challenge, Melillo is your ally in navigating the increasingly complex digital healthcare landscape. Built by a team of experts who have been in the business of technology for over 30 years, MelilloSMART solutions leverage cutting-edge technology to help you boost ROI, enhance operational efficiency, and secure your sensitive data, ultimately positioning you to improve patient care and outcomes.
