MelilloSMART

Empowering Your Vision

CYBERPROTECT
Continuous Monitoring and Protection

MelilloSMART CYBERProtect Managed Service offers a solution to the growing risks companies face from cyberattacks. Many organizations remain vulnerable to significant cyber threats due to limited resources for effective threat identification, prioritization, and response.

CYBERProtect Services start with a full penetration test and vulnerability scan to give you clear visibility into your security posture. We follow this with monthly vulnerability scans and quarterly penetration tests using known, industrystandard exploits to continuously monitor your environment.

WHY CYBERPROTECT?
Cyber threats are growing more sophisticated—and most organizations don't have the time, tools, or team to keep up. CYBERProtect delivers enterprise-grade security without the overhead.

- **Visibility:** With the initial penetration testing and vulnerability scanning.

- **Protection:** Ongoing protection with monthly scans and quarterly pen tests.

- **Trusted:** Trusted expertise to help you stay ahead of evolving risks.

- **Service:** Ongoing service reviews and ticketing access for issue resolution as needed.

MelilloSMART
MelilloSMART helps organizations navigate evolving technology with confidence. Backed by 30+ years of expertise, we deliver solutions that boost efficiency, security, and compliance for better business outcomes.
