

Health professionals are under pressure to meet increasing patient demands, optimize performance, and boost staff productivity—all while operating in a secure IT ecosystem that protects sensitive patient data.

The need for immutable data storage, reliable enterprise backups, and comprehensive archiving is critical for robust data management and compliance with strict regulatory requirements.

MelilloSMART, a suite of proprietary, turnkey solutions helps you strategically position your healthcare organization to meet your most pressing demands and capitalize on new opportunities.

MelilloSMART Solutions for Healthcare Include:

- **RiskMIT:** Comprehensive risk mitigation management processes that reveal vulnerabilities, remediate them, and reinforce security measures to protect data.
- **CYBERProtect:** Safeguard from threats with a managed service that boosts your security posture through regular penetration testing and ongoing vulnerability assessments.
- **EZMigrate:** As you grow and acquire new facilities, integrate new systems and standardize on vendor-neutral archives, ensure seamless data migration and minimal disruptions.
- **RapidDEPLOY:** Generate a virtual sandbox for preliminary testing for quick deployment of critical applications that reduce downtime and minimize disruptions to patient care.
- **SupportTRAX:** Simplify managing contract renewals for equipment and services. This process ensures you never miss a contract deadline—so you can deliver continuous and compliant patient care.
- **AIAdapt:** Introduce AI to automate routine tasks and analyze complex data, so you can enhance clinical care and free up staff.
- **DataOPT:** Incorporating AI/ML, Data Warehouse, Data Lake, and Data Lakehouse, DataOPT turns your healthcare data into a strategic asset that offers accurate predictive insights for enhanced patient care.

MelilloSMART

MelilloSMART helps organizations navigate evolving technology with confidence. Backed by 30+ years of expertise, we deliver solutions that boost efficiency, security, and compliance for better business outcomes.
